- Prices start from £35 and will be discussed during the complimentary patch test and consultation.

FACIAL TREATMENTS

Microdermabrasion and transdermal therapy

Microdermabrasion uses medical grade crystals and a suction tip to exfoliate the top layer of skin and increase collagen production. Transdermal therapy uses micro-currents to allow for deeper product absorption into the skin. LED light therapy uses different lights to treat different skin issues, including pigmentation, acne, fine lines and dullness.

Microdermabrasion	£45
Microdermabrasion and transdermal therapy	£60
Add LED light therapy	£10

RF microneedling

Uses micro-needles and radiofrequency to tackle skin damage such as scarring, dark marks, sun damage, dull skin and wrinkles. Great treatment for all skin types, as it doesn't cause pigmentation issues. Suitable for use on both face and body.

RF	£50
RF microneedling	£95
RF microneedling (3 treatments)	£240

Ipl photorejuvenation

Targets brown spots, sun damage, hyperpigmentation, fine lines and wrinkles, broken capillaries and redness. Gives visible results and minimal downtime.

1 treatment	£89
3 treatments	£225
6 treatments	£420
